Please attention is drawn to the following

This is a custom-made dental appliance that has been manufactured to satisfy the numbers, characteristics, properties and features specified by the prescriber for the above named patient. This dental appliance is intended for exclusive use by the patient and conforms to the relevant technical requirements specified in the Medical Devices Directive and the United Kingdom Medical Devices Regulations 5 (1994 No 10).

Storage, handling and instructions for use:

It is recommended that before use, the dental appliance is stored in a clean and safe environment that prevents it from coming into contact with materials, equipment, acids, alkalies or mixtures that could cause physical or chemical damage to the dental appliance. The dental appliance should not be subjected to extremes of temperature during storage. Where applicable, you should take care not to damage the dental appliance when removing it from its mould.
